- 110.2 Roads, highwalls, slopes, drainages, pits, etc., reclaimed  
The submittal refers to a table and map located in Appendix 6.  
The Division was unable to find an Appendix 6 in the recent or past responses. Please submit this map and table. (DJ)

Figures 6A – 10 is referred to this section.  
Nowhere in your submittals are the indicated Figures. Please review this statement and make the appropriate corrections. (DJ)

- 110.5 Revegetation planting program  
In a discussion of the revegetation success standard, the plan mentions “. . . relatively uniform germination of multiple plant types . . .”. The species that would be used in judging whether germination and establishment was adequate should be adaptable perennial species. The Division suggests modifying the quoted phrase to state, “. . . relatively uniform germination of multiple plant types dominated by adaptable perennial species that support the postmining land use . . .”. (PBB)
